

## PROFILE

### **Power. Heritage. Productivity Approachability.**

That's the Case IH brand commitment for farmers and contractors who work day in and day out to run their businesses efficiently and profitably.

Every day we continue to improve our customers' business life and farming environment with full-spectrum solutions to their needs through powerful, reliable, and productive equipment. Case IH is working around the clock to make farmers' lives easier and more profitable: greater equipment versatility, larger implements and maximum uptime.

Case IH also provides expert after-sales service, parts and financial services through a network of more than 4,000 professional dealers and distributors in 150 countries around the world.

Building on the strength of this heritage, we are focused on assisting the people who grow the food and fiber to feed and clothe the world.

Customers who demand more turn to Case IH, knowing that they will always get higher performance products.

## PRODUCT RANGE

With more **than 220** models in 13 product lines, Case IH products offer a full range of equipment for professional, large cash-grain and row-crop producers for use in soil preparation, seeding, crop protection and harvesting. These include:

- Tractors in all sizes
- Axial-Flow rotary combines
- Specialty harvesters for cotton, sugar and coffee
- Hay and forage equipment
- An excellent line of tillage, seeding and spraying equipment .

All of these products are linked in the Advanced Farming System (AFS), providing the innovative productivity that professionals expect today and that Case IH delivers and fine-tunes day by day.
